*B*orsari's clasp

Over the years, we have developed an exclusive three-position clasp that is one of the distinctive features of our production. This is not simply a technical detail, but a concrete expression of our philosophy: to create jewellery that combines beauty, innovation and functionality, designed to be worn every day with maximum comfort.

This particular clasp, designed and perfected in-house, allows the bracelet to be easily adjusted, offering three different sizes that discreetly adapt to the wearer's wrist. A simple yet elegant solution that overcomes the limitations of traditional sizes, making each creation more accessible, inclusive and versatile, while maintaining the aesthetic harmony of the design. We wanted to introduce this innovation to our iconic tennis bracelet, bringing a breath of modernity to a great jewellery classic.

The result is a piece of jewellery that retains all its timeless refinement, enriched with intelligent functionality that meets the needs of an increasingly discerning, dynamic and international clientele. In an industry where details make all the difference, our adjustable clasp has become a recognisable symbol of our ongoing commitment to quality, elegance and a personalised experience for each and every customer.

*B*orsari's titanium

Always driven by innovation, we have chosen to invest in titanium – a material with extraordinary mechanical, chemical, and aesthetic properties.

Lightweight, corrosion-resistant, and incredibly durable, titanium represents a new frontier in the quality and reliability of our products.

To fully harness its potential, we have adopted cutting-edge production technologies and state-of-the-art machinery capable of delivering the highest precision. Every stage of the process – from design to finishing – is handled with meticulous attention to detail, ensuring outstanding performance and a distinctive look. Our investment in research and development has enabled us to tackle new challenges, expand our range, and raise industry standards.

Titanium is not just a material – it's a strategic choice, a statement of quality, and a promise of durability
